

Preface

The 2025 Social Sciences and Frontier Technology Forum (SSFT 2025) will take place from April 11 to 13, 2025, in Kuala Lumpur, Malaysia. This forum marks a significant milestone in fostering interdisciplinary collaboration between social sciences and frontier technologies. SSFT 2025 offers a unique platform for scholars, researchers, and industry professionals from around the world to come together, exchange ideas, and discuss the latest advancements, challenges, and opportunities in these rapidly evolving fields.

The primary objective of SSFT 2025 is to stimulate cross-disciplinary dialogue and facilitate knowledge exchange between the social sciences and cutting-edge technologies. The forum will present innovative research that demonstrates how the integration of frontier technologies - such as artificial intelligence, blockchain, and big data - can transform social science disciplines. Through these discussions, SSFT 2025 will emphasize the importance of understanding the social impact of these technologies and their potential to address complex global challenges.

This event will feature insightful keynote addresses, academic presentations, and interactive panel discussions, providing participants with valuable opportunities to engage with thought leaders and experts from diverse fields. The forum will also focus on exploring practical applications of research, ensuring that the knowledge shared at SSFT 2025 has a lasting impact on policy, practice, and future research directions.

We extend our heartfelt thanks to all contributors, sponsors, and partners whose support has been instrumental in making SSFT 2025 possible. We are confident that the collaborations formed and the ideas exchanged at this event will inspire continued progress and innovation in both social sciences and frontier technologies.

With best regards,

Conference Committee of SSFT 2025
